## Letter to Parents/Carers of KS1 Children

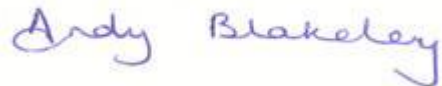

Dear Parent/Carer

In school there have been a number of issues around children watching "inappropriate" videos online. The children are then coming into school and sharing what they have been watching with others and re-enacting things they have seen.

I have spoken to all the children in assembly about the videos they are watching and told them that they mustn't talk about these in school as some children are terrified.

Please be aware of what your child is accessing online and speak to them about not discussing what they have seen.

Yours sincerely

Andy Blakeley - Head teacher
