

Magical muddle times table crib sheet.

Your child might be able to work out the times calculations by doing a repeated addition, on their fingers or in their heads.

1. A repeated addition.

$$3 \times 5 = 5 + 5 + 5 = 15$$

$$4 \times 10 = 10 + 10 + 10 + 10 = 40$$

$$8 \times 2 = 2 + 2 + 2 + 2 + 2 + 2 + 2 + 2 = 16$$

2. Fingers

If counting in 2's each finger is worth 2.

If counting in 5's each finger is worth 5

If counting in 10's each finger is worth 10.

$$2 \times 2 = 2 + 2 = 4$$
