

**Animals
including
humans**

Can I describe the basic needs of animals?

What are the basic needs of an animal?

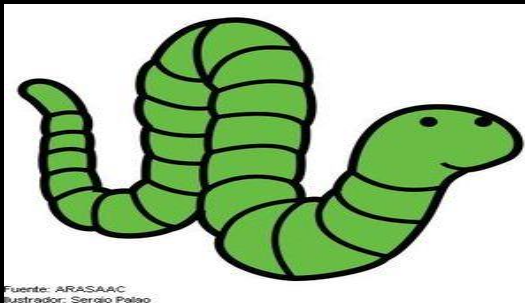

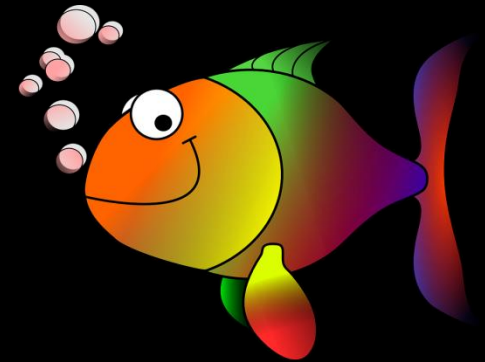

water

All animals need water to survive

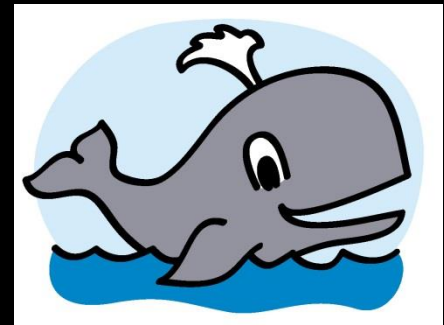

air

All animals need air to survive

Food

All animals need food to survive. But different animals have different diets. Can you remember the 3 words to describe these different diet?

(Hint one begins with a C, one begins with a H and one begins with a O.)

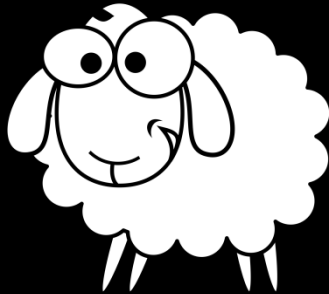

Carnivore

All animals need food to survive and different animals have different appetites and diets. Carnivores eat meat. A carnivore is a predator because it has to find and catch its prey. Some carnivores, such as wolves, hunt in a group called a pack. They move silently and slowly to form a circle around their prey before they attack.

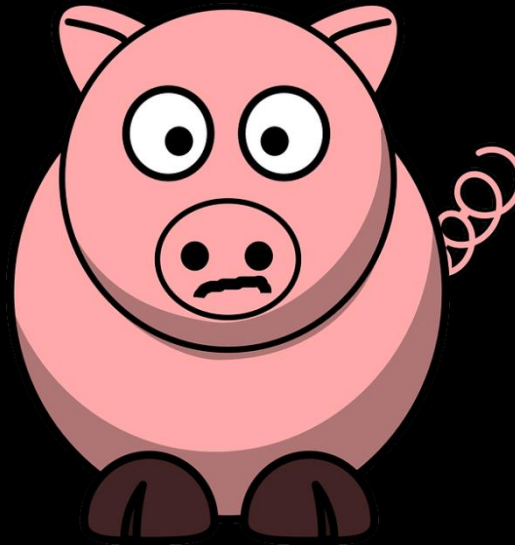

Herbivores

herbivores are animals which only eat plant material. This means leaves, flowers, fruits or even wood. Sheep, horses, rabbits and snails are well known examples of herbivores which eat grass and leaves. A parrot, however, which eats fruits and nuts can also be called a herbivore.

Omnivore

Omnivores eat both plants and meat. Chickens are omnivores. They eat seeds, but they can also eat worms. human beings are also omnivores, although some people choose not to eat meat. These people are called vegetarians..

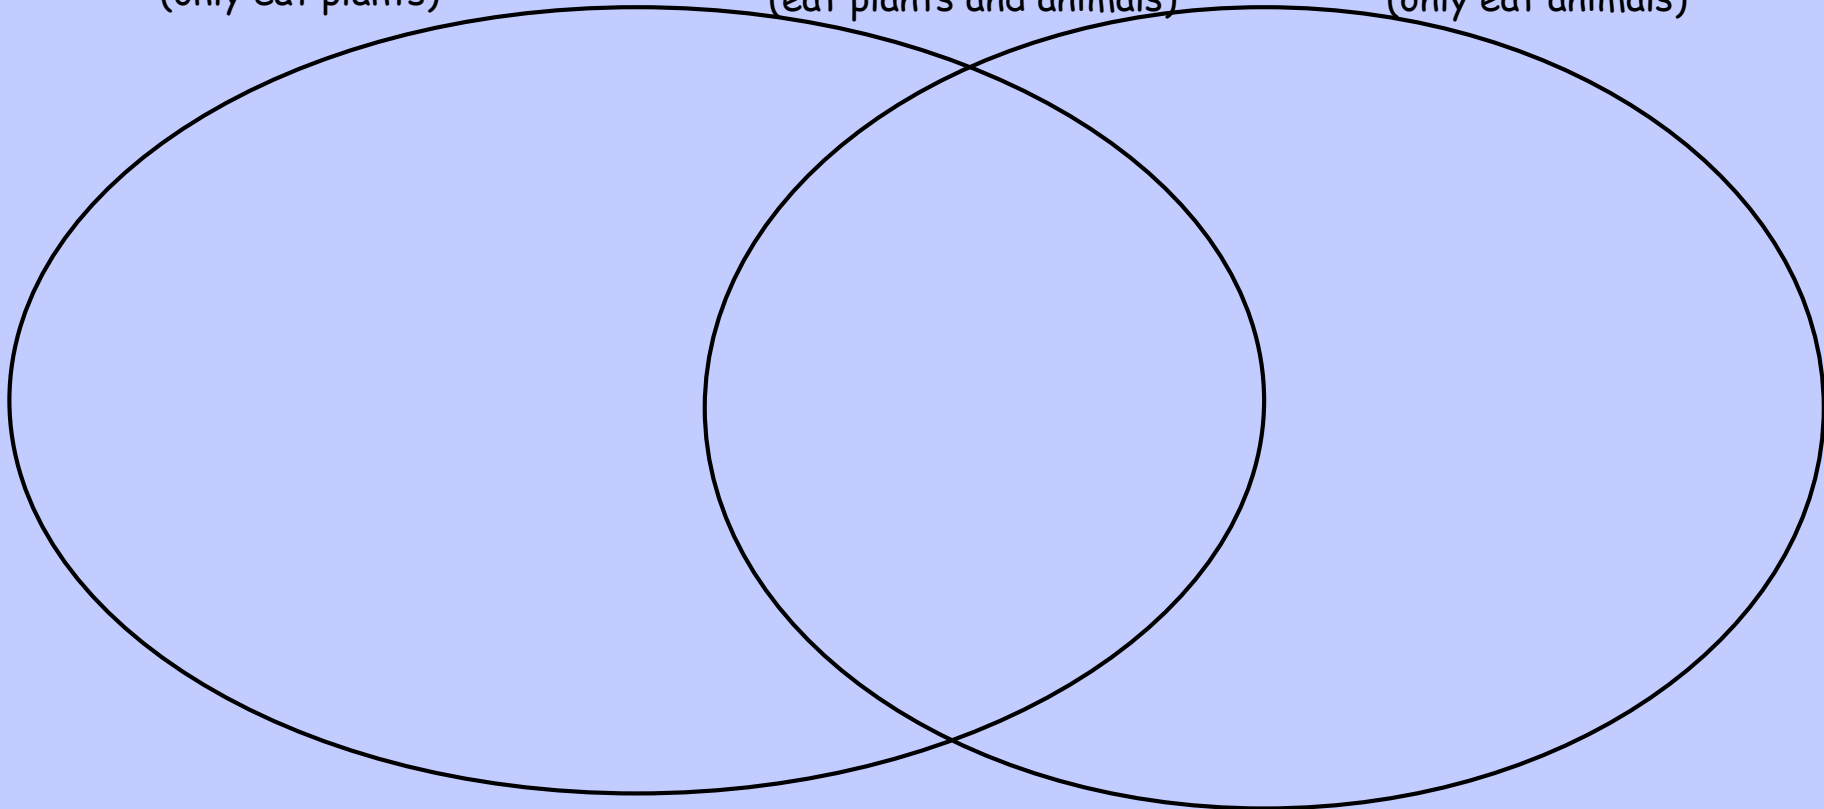

Can I describe the basic needs of animals? In your book can you write a sentence describing the basic needs of animals. Then draw the Venn diagram here below. Fill in the venn diagram by writing and drawing the animals on the page below.

What are the basic needs of an animal?

Herbivores
(only eat plants)

Omnivores
(eat plants and animals)

Carnivores
(only eat animals)

Black Bear

- Berries and nuts
- Honey
- Bees and insects

Urban Squirrel

- Fruit and nuts
- Insects
- Eggs

Robin

- Berries
- Worms

Hawk

- Birds
- Snakes
- Rodents

Warthog

- Roots
- Mushrooms
- Eggs
- Dead animals

Shark

- Other fish

Snail

- Fruit
- Leaves

Jaguar

- Monkeys
- Antelopes

Goat

- Grass
- Flowers

Crocodiles

- Buffalo
- Birds

Giraffe

- Leaves

Rabbit

- Vegetables

Cow

- Grass

Spider

- Flies

How it should look

Herbivores
(only eat plants)

Omnivores
(eat plants and animals)

Carnivores
(only eat animals)

What does a carnivore eat?

A Eggs

B Pizza

C Sweets and Cakes

D Meat

What does a carnivore eat?

A Eggs

B Pizza

C Sweets and Cakes

D Meat

I like to eat seeds and meat. What am I?

A Carnivore

B Herbivore

C Vegetarian

D Omnivore

I like to eat seeds and meat. What am I?

A Carnivore

B Herbivore

C Vegetarian

D Omnivore

What about Humans?

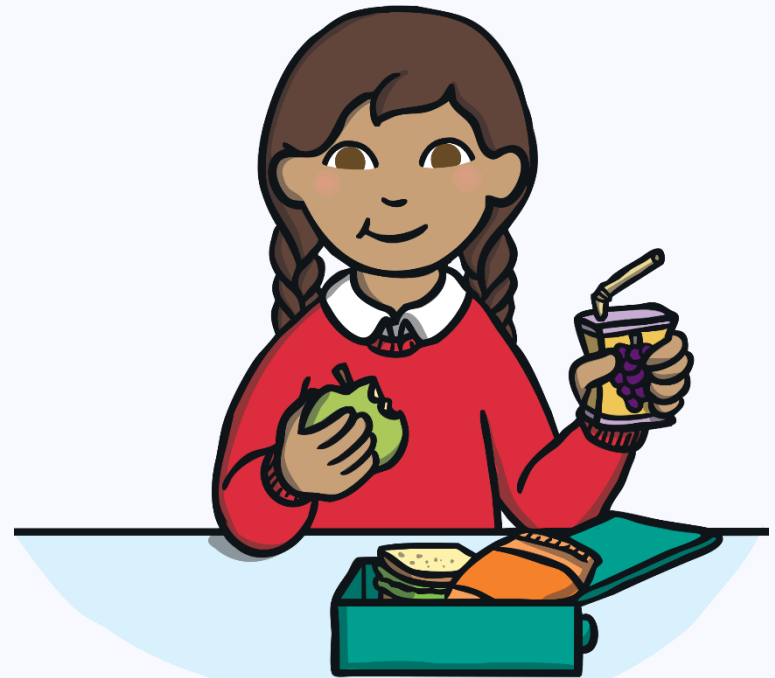

Do you think humans are carnivores,
herbivores or omnivores?

What did you eat yesterday?

Humans are able to eat meat and
plants.

Some people eat only plants, but
most humans have both plants and
meat in their diet.

This makes humans **omnivores**.

Consumers

Carnivore
A carnivore gets its energy from eating other animals.

Herbivore
A herbivore gets its energy from eating plants.

Omnivore
A omnivore eats animals and plants to get its energy.

Cut across the dotted lines to create flaps. Place glue only underneath the title section on the side. Paste into your exercise book. Write or draw about each subject under its flap.

Cut and stick the title flaps on and then draw and write animals that belong to those different categories underneath the flap. You could make your own version if you prefer (seen underneath).
