Date:- \_\_\_\_\_

Make some times calculations and show the repeated addition.

Remember it doesn't matter which way around your numbers go!

numbers	calculation	Repeated addition
2 7		
4 5		
10 5		
5 6		
5 8		
3 8		

Make some divide calculations and show the repeated subtraction

Remember the biggest number has to come first because you need lots to take away.

numbers	2 10

Repeated subtraction	

Number story	Calculation and answer	Number story	Calculation and answer
14 divided by 2 is?		2 divided by 2?	
6 times 5?		Half of 30?	
What's 40 shared by 5?		Twice 7?	
7 multiplied by 3?		20 shared by 2?	
50 divided by 5 is?		30 divided by 5?	

Work these out in your books.

Do a repeated addition or a repeated subtraction array.

Is it right or is it wrong?

Calculation	Is it right? Tick it. Is it wrong. Cross it
$2 \div 2 = 4$	
$2 \times 7 = 14$	
$8 \div 2 = 4$	
$2 \times 10 = 30$	
$12 \div 2 = 4$	
$4 \times 5 = 20$	
$40 \div 5 = 7$
