

Ideas for a space story

Talk about your story

Who is the main character?

Astronaut/alien/human.....?

Where do they live? What do they look like? What is their character like?

What is their problem?

(Back to Earth started with a problem. Where had the sun gone?)

How do they solve the problem?

Is it a sad or happy ending?

Now you know what is going to happen, think of a title!

Remember:-

- Write in sentences that make sense.
- Check your punctuation. Do you have full stops, commas, exclamations?
- Check your capital letters for the beginning of sentences and proper nouns.
- Adjectives or similes
- Different conjunctions
- Feelings or humour.
- Some different sentence openers.
