- Letters and sounds learning record
- Dry wipe board
- Dry wipe pen and rubber
- Pencil
- Tricky word wall
- Jolly phonics grapheme card
- Number line
- Story writing word mats
- Space and Seasons word mats
- Maths challenges

Weekly activities will be posted on the website.

When you are working on phonics from the website; we usually write words on wipe boards.

When we are doing number work, we draw the jumps on the number line using drywipe pens. Written calculations (the children refer to these as number stories / sentence) should be recorded in the green books.

Please use the lines in the handwriting books to aid your child to form and size letters. Follow the routes given out on the formation sheet at parent consultations. If this is not available the formations in the front of the book will be okay.

When writing with the children, please encourage your child to 'stretch out' the sounds in words so that can spell them. For example apple.....a...p..u...l... if the child records apul this is phonetically plausible. We would guide children to apply the digraphs they know and tricky words should be spelt correctly using the word wall as a guide.

When reading with your child please encourage them to segment and blend to identify individual sounds and blend them together to make a word. For example c...ar...t...cart.

For topic, activities may include drawing, finding out facts / drawing and labelling objects – for example your beanstalk.

We appreciate that this is a very difficult time. Thank you for all your support.

Mrs Bates and the F2 team.
