

Leonard the Lion

You will need:

Paint (gold, black and green)

Black felt-tip pen

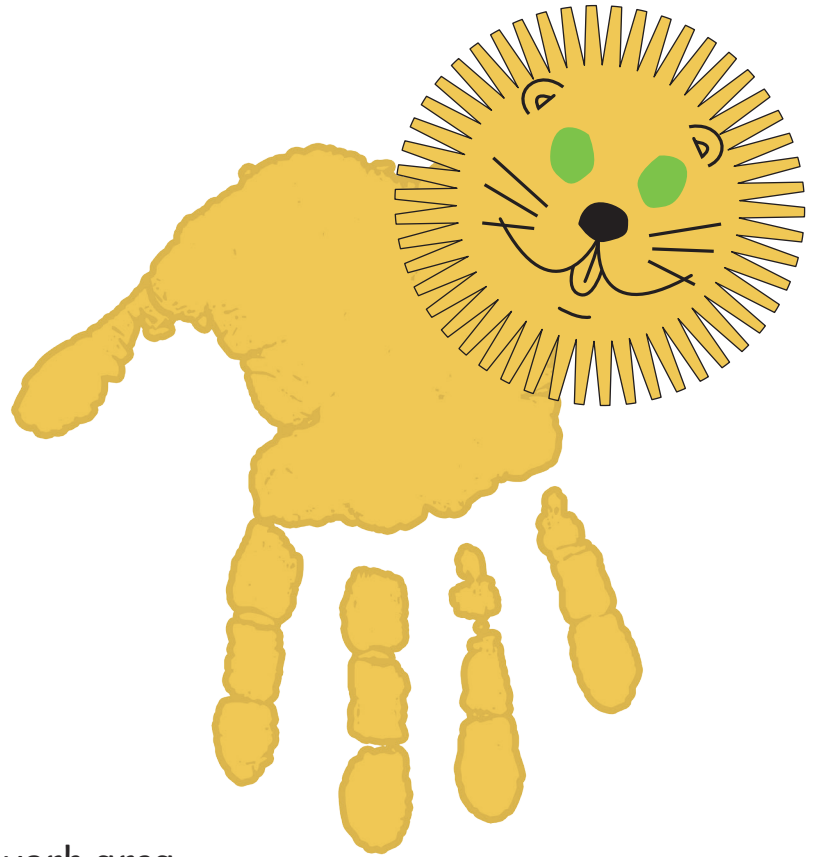

A3 paper of any colour (not gold)

Gold paper

Scissors

Glue

Newspaper

Instructions

1. Spread newspaper over the work area.
2. Paint the inside of the hand, including fingers and thumb, with gold paint.
3. With fingers and thumb spread wide, make a print in the centre of an A3 sheet of paper (fingers pointing down, thumb at a right angle).
4. Cut a circle out of gold paper for the lion's head. Make short cuts all around the circle to make a mane (see illustration). Curl the mane around a finger or pencil to give it shape. Glue the lion's head on the print so that it overlaps the heel of the palm (the side opposite thumb).
5. Dip a finger in green paint and print two eyes.
6. Dip finger in black paint and print a nose.
7. Once dry, draw a lion's mouth and whiskers with a black felt-tip pen.
