E-Safety Newsletter

Issue 3

Dear Parent or Carer

Google Safe Search

I have received some information about Google Safe Search which I have attached for your consideration. I'm sure the instructions should be easy to follow.

Find My Phone

If you have iPhones, iPads etc you can set up 'find my phone' and 'find my friends' which allows you to locate the Apple device in question. All you need to do is link your child's phone to yours and you can see where the phone is.

During the holiday something similar was used to locate a stolen phone and 2 thieves were arrested.

General Concerns

If you have any general concerns about your child and e-safety, please contact me at school.

Yours sincerely

Andy Blakeley
