Dear Parent or Carer

Sony Playstation 4

As you may be aware your children may run up high costs using Apps which charge for 'extra' things within a game.

I have recently been made aware that this may also happen with some Sony games.

Please review your settings to ensure you give yourself maximum protection from unwanted costs. Unfortunately not having a new games console I can't give you a first hand route, but it is definitely worth checking.

I looked for guidance on the internet but sadly most is blocked by our filter due to the 'play/gaming' nature of the search, however, I found the following:

www.tomsguide.com

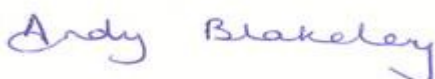

Then type in the search box 'parental controls'.

If you go to 'How to set up Xbox One Parental Controls'. Click.

Then scroll down, you will see a link to Play Station 4.

I think it's worth a look to ensure everything is set up right.

Yours sincerely
