# E-Safety Newsletter

Issue 8

Dear Parent or Carer

## YouTube

Please be aware that on the YouTube site your children can access many videos. Mostly there are suitable, but a sizeable minority should not be seen by your children, (or anyone for that matter).

Recently, in Kirklees, a child had been using the site to view videos of self harming. Whilst it is impossible to eradicate such videos, or people uploading them, you can take measures to protect your children.

Do you know what your children are watching?

Do you check their history on devices?

Where do your children watch on-line? If it is away from an adult ask if that is the wisest choice.

Do your children know what to do if they see something inappropriate?

Do your younger children watch with your older children?

Can you upgrade your security filters?

Yours sincerely
